

# Liquids & Solids

## Part 2

**Hands on Science is an after school science class for 4-6 year olds.**

**Class A-Jan 10, 17, 24, 31,  
Feb 7, & 14.**

**Class B-Jan 11, 18, 25, Feb 1, 8 & 15.**

**Classes held at 12:45pm-1:30pm. in  
the Pre-K/Kindergarten Class.**

**The cost for the 6 week session is \$95.**

This class uses the Lawrence Hall of Science curriculum designed for early childhood. Fun weekly projects focus on physical science, observing, comparing, and acquiring new vocabulary.

### About Our Teacher:

Len Paterson has been teaching science to young children for 14 years at Berkeley Montessori School. He received his Montessori Teaching Credential from Sonoma State University in 1988. He has been a head teacher for four years and directed an after school program that focused on creative arts and crafts. He uses the FOSS (Full Option Science System) specifically designed for early childhood. Len was trained at the Lawrence Hall of Science in the nationally recognized 'Peaches and Gems Program'. This hands-on experiential learning is engaging and very appealing to young learners.
